- Second coat applied to front finished face.
- Ends must be sealed on site prior to installation.

• Applied Finish: Broda SLT
or Broda DR. Water-borne, natural oil, low V.O.C, alkyd, penetrating stain.

• Color: Broda 237 Taluswood

• Coating Options:
- Broda clear U.V. top coat oil for exterior.
- Broda Clarity acrylic clear top coat for interior.

• Species
Western Red Cedar is a medium - to large-sized, evergreen, scale-leaved conifer. It is one of the most valuable conifers owing to the unique colour, texture, and durability of its wood.
It is renewable, biodegradable, sourced from sustainably managed forests, naturally resistant to rot and decay, and is one of the most dimensionally stable softwoods.

• Wood Grade
Crisp WRC is available in:

- Select tight knot	specified lengths
- C&BTR clear mixed grain	6'-20' random tally
- C&BTR clear vertical grain	3'-20' random tally

Product pictures of WRC on crisp wood co website features select tight knot unless noted
